

Raphael Kaíque Dias Santos

Backend / Full Stack Developer | PHP • Symfony • TypeScript • NestJS • Go • Gin • Java • SpringBoot

Grande BH, Minas Gerais, Brazil • raphaelkaikuediassantos1@gmail.com • +55 (31) 99665-3731

PROFESSIONAL SUMMARY

Software Developer working in software development since 2020, with a backend-oriented profile and experience across APIs, system integration, databases, Linux servers, distributed systems and software architecture. Strong alignment with PHP/Symfony, TypeScript/NestJS, Java/SpringBoot and Go/Gin stacks, supported by practical experience with REST/SOAP APIs, Docker, Git, Linux, MongoDB, PostgreSQL and relational databases. Experience delivering systems for IoT, telecommunications, AI, remote teleoperation and autonomous-vehicle environments, including high-performance and integration-heavy solutions.

CORE TECHNOLOGIES

Backend: PHP, Symfony, TypeScript, Node.js, NestJS, Express.js, Go, Gin, Java, SpringBoot.

Databases: Oracle, PostgreSQL, SQLite, MongoDB, Redis, Neo4j.

Architecture & APIs: REST/RESTful APIs, SOAP, GraphQL, gRPC, WebSockets, WebRTC, Microservices, Event-Driven Architecture, DDD, SOLID, Design Patterns, Hexagonal Architecture, Clean Architecture, MVC, System Design, TDD.

Infrastructure: Linux, ShellScript, NGINX, Apache, Docker/Compose, Git, GitHub, GitLab, Jenkins CI/CD, SSH, virtualization, cloud environments.

Messaging & integration: RabbitMQ, MQTT/Mosquitto, cURL, JSON, JWT, TCP/UDP, RTP/RTSP, SIP, ONVIF.

Additional: JavaScript, Angular, C#/ASP.NET, Java/SpringBoot, C/C++, Python, Qt/QML, IoT, telemetry, CAN/CANopen, OpenCV, FFmpeg/GStreamer.

PROFESSIONAL EXPERIENCE

SEESTEC Engenharia e Tecnologia — Development Analyst | Jan 2026 – Present

- Develop, maintain and evolve software systems for AI, IoT, remote teleoperation and autonomous-vehicle applications.
- Analyze requirements and translate business/user needs into technical specifications and software solutions.
- Develop APIs, web services and integration routines for internal and third-party systems.
- Work with PHP/Symfony, JavaScript/TypeScript, Node.js/NestJS, Linux, NGINX, Docker/Compose, Git, ShellScript, MongoDB, Redis, MySQL and SQLite.
- Develop and integrate communication and real-time systems involving WebSockets, WebRTC, RTP/RTSP, SIP, TCP/UDP, MQTT and ONVIF.
- Perform unit, integration and system testing, troubleshooting, performance optimization, documentation and production support.
- Work with AI/Computer Vision environments using NVIDIA Jetson, OpenCV, PyTorch and Tesseract, as well as LLM/RAG/agent tooling.

ARQIA Telecom & IoT Latam — Development Analyst | Sep 2025 – Jan 2026

- Developed and maintained software for IoT, MVNO and VoIP environments.
- Developed REST/SOAP APIs, integration routines and web services using C#.NET, ASP.NET, PHP/Laravel and JavaScript.
- Worked with Microsoft SQL Server, T-SQL, Entity Framework/LINQ and Azure services including Logic Apps, Functions, Storage and API Management.
- Performed unit, integration and system testing, bug fixing, security practices and performance optimization.
- Collaborated with analysts, testers, designers and developers using Scrum and Kanban.

SITECH Brazil — Technical Analyst | Nov 2023 – Oct 2024

- Developed solutions for teleoperation imaging systems and remote control of autonomous vehicles using C/C++, JavaScript, React, Node.js, Python, MySQL, Qt/QML and MQTT/Mosquitto.
- Implemented, tested and maintained software and database environments.
- Administered database servers and supported Linux/server infrastructure and network diagnostics.
- Worked with telemetry and CAN/CANopen networks in integration-heavy industrial systems.

Sotreq | CAT Latam — Sales Assistant / Automation & Data | Sep 2020 – Nov 2023

- Developed process-automation and data-analysis tools using Python, SQLite, VB and ABAP.
- Built KPIs and dashboards using Power BI, DAX, Excel and VBA.

EDUCATION

Bachelor's Degree in Computer Science — UNIAMÉRICA Centro Universitário União das Américas Descomplica | Jun 2024 – Dec 2028

Associate Degree in DevOps — UNIDERP Universidade Anhanguera | Feb 2021 – Jul 2023

Associate Degree in Mechatronics — UNIAN Universidade Anhanguera | Jun 2018 – Dec 2020

Technical Education in Industrial Mechanics — SENAI Centro de Formação Profissional Euvaldo Lodi | Aug 2016 – Apr 2018

ENGINEERING PRACTICES

SOLID • DDD • TDD • Design Patterns • Clean Architecture • Hexagonal Architecture • MVC • Microservices • Event-Driven Architecture • System Design • Design Docs • Agile/Scrum/Kanban • CI/CD • Docker • Git

LANGUAGES

Portuguese — Native | English — Professional technical proficiency
